What is CESA Purchasing

In 2006, the 12 Cooperative Educational Service Agencies (CESAs) created CESA Purchasing to manage vendor contracts so every school in Wisconsin can make affordable purchases, no matter their size. CESA Purchasing, through negotiations for its Wisconsin-only contracts and nationally-bid AEPA contracts, continually creates partnerships that allow schools and vendors to reach agreements which would otherwise be challenging and cumbersome. CESA Purchasing sets its goal to save schools time and money as simply as possible so you can focus on your students.
